Deal Activity & Valuations

Deal Activity

Mergers and acquisitions activity through the end of the third quarter of 2020 fell 20% on a year-over-year basis as the economic effects of the coronavirus pandemic continue to influence deal activity in the United States. Additionally, total deal value continues to decline as acquirers have developed a more cautious approach to the deployment of capital, given the vast uncertainties surrounding the pandemic.

Valuations

Given the complexity of accurately valuing assets in the current coronavirus environment as well as the overall uncertainty surrounding the market, acquirers have creatively modified transaction structures resulting in less cash at close while maintaining relatively high valuation multiples.
