

Additional Ways to Help Keep Your Accounts Safe

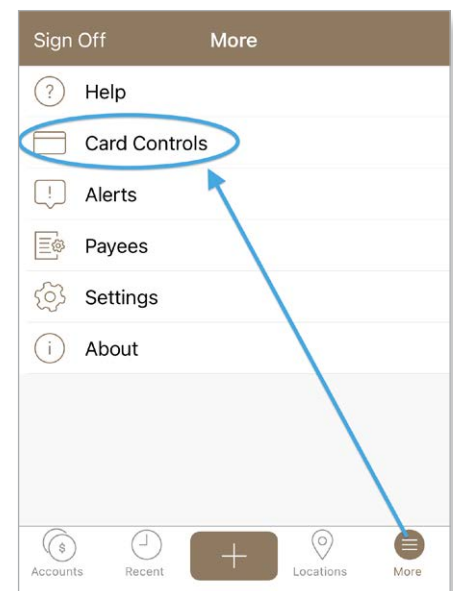

1. Within **Online Banking**, you can set notification alerts based on account balance, deposits, transfers, transactions and more. To customize your alerts, open the Customer Service menu within online banking, and click on **Manage Alerts** (under Contact Options).

2. Within the Mobile Banking app, **Card Controls** allows you to turn your debit cards on and off in real-time. You can also:

- Control where your debit card can be used through your phone's GPS services or by selecting authorized zip codes
- Control the types of merchants where your card can be used, such as in-store or online
- Receive instant push notification alerts on your phone when your debit card is used

We're here to help! Please let us know if you have any questions or if you receive a phone call or email that raises your suspicions. Call 816-931-4060 during business hours, or email us any time through [our secure contact form](#).

We know you have many choices in banking – we are honored you choose us.
