

# ACH POSITIVE PAY

ACH Positive Pay helps protect your funds by only allowing ACH transactions from parties you have pre-approved.

## HOW DOES IT WORK?

1

Company identifies approved debits for their account

2

The approved IDs are added to the business online banking profile

3

As ACH debits are presented to the account, the IDs are matched in the system

4

Exception items are sorted out

5

Company is notified

6

Company decides whether to pay or return

## HOW TO PARTICIPATE IN ACH POSITIVE PAY

1

Ask your banker to set your company up for ACH Positive Pay

2

List of company IDs is added to your online banking profile

3

Enjoy more peace of mind as fraudulent payments are easily identified
