

Staying Secure

During COVID-19 and Beyond

Scammers are taking advantage of this time of uncertainty by preying on the anxiety we're all feeling. Please remember to follow these guidelines to help keep yourself safe.

- Be cautious of unsolicited phone calls and email
- If you receive any unusual emails from a contact you recognize, don't hesitate to call them at a known phone number to verify
- Don't click on links you're unsure about
- Don't let someone pressure you into giving money for a product or donation
- Please remember that Country Club Bank will never ask for your account number, full debit or credit card number, CVV number, PIN number or full social security number by phone, email or text.
