Subsequent Client Login

Subsequent logins are fast and easy when accessing the site from the same device. During the Log In process, we not only validate your access ID and password, we also analyze numerous elements regarding your device to ensure your identity. When we experience a change in your device, you may be required to complete an additional step in the Log In process by entering a one-time security code to validate your identity or by opting to answer challenge questions. The one-time security code can be delivered through a **telephone call** or **text message**. If you do not have access to a telephone, you can **opt to answer challenge questions**.
